Master's Degrees for Those Made to Do

You want a master's degree that will give you a competitive edge in the rapidly changing global economy. Hult's master's programs have been designed to develop the skills most in-demand with employers worldwide, so you can add value from your first day on the job.

Be the best team player you can be

Business is built on people and it's ultimately your ability to lead and contribute to your team that will determine your personal and professional success. At Hult, you'll focus on strengthening your collaboration, communication, and leadership skills that will prepare you to lead in a global business environment.

Gain the digital skills the 21st century demands

Different specializations require different technological savvy but one thing's for certain—you need a strong digital skillset in today's workplace. Choose from a variety of specializations that will give you the knowledge and skills to succeed in a tech-driven business world.

Develop the business expertise to make an impact

Gain the foundational business skills needed in any career with a practical, hands-on approach. Project management, data analysis, financial acumen, and marketing strategy skills are at the core of the Hult master's program.

Master's in International Business students in San Francisco take part in their first leadership simulation

Master's in International Business

Prepare to thrive in a rapidly changing business world with Hult's one-year MIB, where you'll gain all-around business experience in an international environment and develop the skills most in-demand with employers worldwide. You'll become a valuable contributor to any organization as you learn innovative business skills as well as meaningful communication and collaboration.

Develop key skills such as business process and analysis, international marketing, data visualization and storytelling, and financial literacy. Explore opportunities to launch new products in global markets and determine a market strategy for success through real-world business challenges that are integrated into your entire program.

Program fees
Full-time, one-year MIB
55,000 USD* (Boston)
55,000 USD* (San Francisco)
44,000 GBP* (London)
179,000 AED* (Dubai)

Take your business career global

Post-graduation work authorization for MIB graduates¹

Our expert visa teams, located on every Hult home campus, know exactly what international students need to do to get themselves in the best possible position to secure a work visa after graduation. They'll guide you through your options and help you put your post-graduation plans in motion to secure a work visa for your target country.

MIB graduates of Hult Boston/Hult San Francisco:

Optional Practical Training (OPT) is a type of work authorization that allows F-1 students who have studied in the US for one full academic year (fall and spring terms) to work in the US after graduation to gain experience related to their field of study.

- MIB graduates can be eligible for **one-year OPT**
- Upgrade to a STEM degree for an additional fee to be eligible for up to **three-years OPT**

MIB graduates of Hult London:

The Graduate Immigration Route is an unsponsored route to work or seek work at any level in the UK. If successful, the visa will be issued for two years.

- MIB graduates can be eligible for a **two-year work visa** via the Graduate Immigration Route

MIB graduates of Hult Dubai:

You will be eligible for an employment visa if you have secured a full-time job in the UAE. Start searching early for an employer who could sponsor you after graduation.

¹Visit the Hult Blog for our visa team's guide on post-graduation work authorization.

Ali Fenwick, PhD

Dutch/British
Organizational Behavior &
Innovation Professor

With 18 years of experience in management consulting in telecommunications, FMCG, and pharma, Dr. Fenwick is a professor of industrial-organizational psychology who teaches across several key topics including organizational behavior, leading for innovation, and management psychology. Ali is the founder and CEO of LEAD TCM&L™—a global behavioral science advisory firm developing psychological interventions for business, education, government, and NGOs. He is also a Harvard Business Review contributor, TEDx and keynote speaker, media behavioral expert, conference chair, author, and strategic advisor.

SAMPLE MIB BUSINESS CHALLENGE*

Individual Pitch Competition

Put all your newly acquired business expertise to the test for this individual challenge to develop a new solution focused on sustainable processes or a sustainable new product. You'll detail the location, process, and pilot scheme—and tell your story with data. Finish with a poster showcase to pitch your idea to a panel of judges.

Master's in International Marketing

Stand out in a competitive global marketplace with Hult's one-year MIM that equips you with the international strategic skills, creative executional ability, and cutting-edge knowledge to thrive in a constantly shifting digital environment and understand the importance of the customer journey in today's fragmented media landscape.

You'll learn to develop a marketing strategy leveraging tools needed to market through digital channels, conduct market research with an eye toward new product development, and examine global market opportunities for expansion and growth. Gain a solid foundation of marketing analytic skills and learn to develop key metrics for a successful strategy as you take part in real-world business challenges that are integrated into your entire program.

New Product Pitch

You and your team will apply your futures thinking and design thinking in this new product design challenge. You'll be provided with some new technologies as the basis for creating a new product or service to meet an unmet customer need, before presenting your new product pitch to an executive team.

Prof. Cari Guittard leads an ideation session at Hult San Francisco

What Will My Week Look Like?

We don't like regular Mondays. Or Tuesdays, or Wednesdays ... you get the picture. The sample schedule opposite shows you a typical timetable of a Hult master's student.

What it doesn't show you is the learning experience in classes and the rich extracurricular options available. The clubs and societies on campus range from sports to social to professional. Clubs are not only a great way to expand your network and your skillset, they can greatly enrich your education. Just like our classes, Hult clubs are incredibly active and hands-on, providing additional opportunities for practical learning.

Head over to the blog for in-depth interviews with:

- Hult Consulting Club
- Hult Data Global
- Women in Business
- Hult Founders Lab

Meet the Clubs

Students proudly celebrating success within the Global Women in Business Club

Work With Real-World Businesses on Real-World Challenges

Business Challenges are project-based, faculty-led courses that occur during or at the end of each core module. These challenges combine skills, topics, and knowledge from previous courses to apply toward solving or developing real-world business strategies.

At least one of these challenges involves working alongside a real-world corporate client, which gives students the opportunity to gain practical experience working with successful companies, grow their network, and add weight to their resume.

Previous Business Challenge examples include:

Client: Mercedes Benz

Developing solutions to increase the electric vehicle share in key global markets.

Client: Verizon Wireless

Establishing new market segments and key enablers of technological disruption.

Client: Kinder

Developing an integrated marketing campaign across Above the Line and Below the Line touchpoints.

Client: Grupo Bimbo

Integrating technological strategies, including ecommerce and autonomous vehicles, into food industry strategy while enhancing existing business models and creating new customer access innovations.

Entrepreneurial Challenge

Creating a new business concept at the edge of growth trends, while developing and validating ideas through deep insights, and building a go-to-market plan that is executable and financeable.

STEM Challenge

Identify a future business opportunity in the next 5-10 years, perform a professional exploration of the opportunity, and develop a strategic plan to integrate and execute the opportunity.

Xavier Saint-Arnoult is congratulated on his pitch to Google at Hult Boston

Experience that gets results

The skills and mindset students gain at Hult have earned our graduates a reputation among employers as globally minded changemakers. Hult alumni are in demand with the world's leading companies and are forging successful careers across a variety of industries all over the world.

Electives & Specializations

In the summer terms, from May to August, you'll choose electives based on your personal interests and professional goals. You can travel or “rotate” to any campus up to twice to take your electives. Different campuses offer different electives—so it's up to you where and what you study.

Marie-Ange Koné wants to know more about the simulation Prof. Cari Guittard is running at Hult San Francisco

New electives are added every year to keep options up to date and relevant, and **over 150 electives** are available to study every summer.

If you want to **graduate with a specialization**, you'll need to take three electives in that specific area.

An elective a year for life

Your knowledge, skills, and qualifications will need to be constantly updated throughout your career. Once you graduate, we have lifelong learning options that enable you to stay up to date and relevant—always. You can come back to any campus, every year, to take an elective that suits you.*

Hult is the proud recipient of the bronze award for Best Lifelong Learning Initiative 2021 from the Association of MBAs (AMBA) and the Business Graduates Association (BGA).

*Post-graduation elective courses are subject to availability and a 100 USD registration fee, subject to change. Some courses are offered online.

Kisuc Kim maps out his options on the walls of a meeting room on the Dubai campus

Areas of specialization and sample electives:*

Digital Marketing

Psychology of Pricing in a Digital World
Social Media Marketing Strategy
Customer Acquisition Through Digital Marketing

Finance

Business Analysis & Valuation
Behavioral Economics & Decision Making
Mergers & Acquisitions

Technology Management

Introduction to Bitcoin & Blockchain Technologies
Managing Innovative Technology
Cybersecurity Technology

Data Analytics

Introduction to Machine Learning
Digital Analytics: Becoming a Digital Ninja
Applied Statistics with R

Project Management

Crisis Management, Mitigation & Response
Lean Project Management
Supply Chain Analytics

Other popular electives include:

International Negotiations & Business Consulting
Management Psychology
Entrepreneurship Through Acquisitions
The Science of Happiness & Well-Being
Artificial Intelligence & the Future of Humanity
Global Strategic Valuation
Sustainable Brands & Products
Luxury Marketing

*Electives subject to change.

Double Your Value With a Dual Degree

Why get one master's degree when you can get two? Stand out twice as much in the global job market and double your impact with more skills, networking, experience, and qualifications with a Dual Degree from Hult. Earn two master's degrees in just 18 months and graduate with a winning combination of skills to set you apart from the competition.

Increase your opportunities with a STEM degree

Students who graduate from Hult in the US with Business Analytics or Finance as part of their Dual Degree are eligible for three years OPT—post-graduation work authorization in the US in a STEM-related field. Other Dual Degrees may qualify you for one-year OPT in the US and all can be eligible for a two-year Graduate Immigration Route in the UK.

Esau White, Master's in International Business, Master's in Business Analytics, did his Dual Degree at Hult San Francisco

Dual Degree options and timings

Program fee for the second master's as part of the Dual Degree: **33,000 USD**, in addition to first master's program fee*

*This is indicative program pricing, other fees will apply. Please visit our website for more detailed costs.

Scholarships & Financing Options

Your education is undoubtedly one of the most important investments you will ever make. Throughout the application process, we will work closely with you to help you understand the options available to you to finance your degree.

You'll receive personal support throughout the application process

Partial scholarships

Partial scholarships are designed to help us find the best global talent and maximize diversity. Our scholarships cover a wide range of backgrounds, industries, sectors, and nationalities.

- Social Impact Scholarship
- Global Professional Scholarship
- Entrepreneurial Impact Scholarship
- Future Leader Scholarship
- Women in Business Scholarship
- Academic Excellence Scholarship

Needs-based financial aid

If you have a demonstrated financial need, Hult may be able to help with limited need-based financial aid that is awarded on a case-by-case basis. The financial aid committee looks at the situation of each accepted student and, depending on each candidate's personal circumstances, decides if financial aid will be awarded and at what level.

Loans & government support

Financial institutions in many countries offer education financing specifically to local citizens. These loans are typically repayable after completion of the course, although terms vary widely. Depending on where you are from, you may be eligible for loan and grant opportunities offered by your government. We work with candidates to help them identify suitable financial institutions and government programs.

Payment plans

We have a variety of payment options to fit your situation, including Early Payment discount. If you choose the Early Payment plan, you are eligible for a 2%* discount on your tuition (*net fees after scholarship and financial aid are deducted), providing you meet the terms.

Please reach out to our enrollment team for more information at hult.edu/contact

We'll help you find the right option for financing your degree

Ready to Apply?

We are looking for dynamic, international, and open-minded individuals who have the ambition to grow and succeed in the world. Sound like you? Here's how you can join Hult:

How to apply

1. Complete your online application at hult.edu/apply
2. Pay 95 USD application fee
3. Submit application and supporting documents
 - Resume/CV
 - Personal statement
 - University transcripts
4. Personal Assessment Interview
5. Admissions decision
6. Submit deposit to confirm your seat

Your Personal Assessment Interview

This interview is the centerpiece of the Hult admissions process. We are a future-focused business school and this is the best opportunity you have to share your plans and dreams with us. This is the time for us to really get to know each other in person, over the phone, or via video call.

Entry requirements

Different master's programs have different entry requirements:

- Bachelor's degree or equivalent (MIB, MEI)
- Bachelor's degree in a business-related field

OR any bachelor's degree or equivalent + one year's relevant work experience (MIM, MFIN, MBAN)

- Less than three years' work experience (MIB)

Candidates for all programs require:

- Proficiency in English (TOEFL/IELTS/PTE)*
- Successful application

Apply Now

*English test waivers may apply for native English speakers or if your bachelor's was completed in an English-speaking country. Your English test results can come later in the process if they're not available immediately.

We have enrollment advisors in every region so you can talk directly to one of our team, wherever you are in the world
